### About

I am a self taught full stack web developer with proficiencies in technologies such as Ruby on Rails, Javascript, React, Stimulus, HTML, CSS and Docker.

### Projects

*MA EMS Protocol Rewrite:* [Website](#) | [Source Code](#)

A rewrite of [Massachusetts EMS Protocols PDF](#) into a modular React / Gatsby version. It is meant to be a more easily accessible and navigatable version of the protocols. This is the current project I am working on.

*ParamagicBook:* [Website](#) | [Source Code](#)

A web app created using Ruby on Rails to emulate functionality similar to Facebook. It includes things such as OAuth2, Authentication via Devise, Notifications via polling, and many other cool features.

*Odin Flight Booker:* [Website](#) | [Source Code](#)

A web app designed to emulate booking a flight created using Ruby on Rails and TailwindCSS. It is a project meant to show how to use multi-step forms in Rails.
